Crascent Unity lies on high ground which rises gracefully from the west bank of Grescent Lake, a beautiful sheet of clear water is miles in length and from three to five miles in width. The place is well lake out in town and grove lots, the former constituting a portion of the town but ske blocks in width lying between two lakes—lake Grescent on the cast and lake Stella on, the west, Thelievol of lake Stella is as feet higher than that of lake Grescent thus affording perfect drainings. The water of lake Stella has its source in springs and is kept absolutely pure by the town authorities who have made it a misdemeanor to it any way contaminated.

After nine miles of travel through this stream the steamer energes into the broad and beautiful Lake Crescent. A run of an hour and a half lands the passenger at Orescent City, the steamer's southernmost landing. About five years ago my right ear began to sing, and this kept on getting worse, until I lost my hearing in this ear entirely.

I underwent a treatment for cuturity, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.

I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the moises coused, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored.
